

The Association for Child and Adolescent Mental Health  
is delighted to announce its 2010

**LIONEL HERSOV INTERNATIONAL TRAVELLING FELLOW**

Named in honour of eminent psychiatrist Professor Lionel Hersov, a popular colleague and contributor, and valued member of ACAMH since 1965, this prestigious award brings an internationally acknowledged overseas expert to the UK to present at national or local ACAMH events, and so convey a comprehensive context, wider perspective and latest information on camh-related services, disorders, interventions and treatments.

**2010 International Travelling Fellowship Speaker**

**Professor Thomas Sexton**

Past-President, Society for Family Psychology, American Psychological Association  
Professor and Director, Center for Adolescent and Family Studies, Indiana University

will present around the topical, important and fabulously valuable and relevant area of:

**‘Functional Family Therapy’**

**Including Other Family-Based Approaches to Youths with Mental Health Problems  
.... theories, developments, strategies and techniques ....**

Professor Sexton was heavily involved with the development of the FFT clinical model and its national and international dissemination. He is one of the nation’s leading researchers in the transportation of evidence-based practices into community settings. His research interests include family psychology, family based interventions for at-risk youth, functional family therapy, and outcome and process research in evidence-based psychological intervention programs. His interest in family psychology and psychotherapy research have resulted in over 40 journal articles, 25 book chapters, and 4 books, including his most recent – and the first book to be published on FFT in over thirty years – *Functional Family Therapy in Clinical Practice* (2010), as well as his very popular *Handbook of Family Therapy*, a major reference in the field. As a member of the Division 43 Task Force for Evidence-Based Practices, he is the senior author of the Recommendations for evidence-based practices in Family Psychology. He has presented more than 300 workshops on Functional Family Therapy and consulted with systems of care helping to integrate evidence-based practices into clinical settings both nationally and internationally.
