Notes:

Description This is a summary of the indicator - the full definition can be found on the Department for Communities and Local Government website - www.communities.gov.uk

LAA/Scorecard This shows whether this indicator is in the Local Area Agreement (LAA) or the Children's Trust scorecard (note that all LAA indicators are also in the scorecard)

Polarity This indicates whether good performance is generally denoted by a high or low score

Direction of travel This shows whether the three-year trend demonstrates improvement or not. Regardless of the polarity of the indicator, an upward arrow signifies improvement

Statistical neighbours This is a group of other local authorities that are designated as "similar" and that Ofsted uses to compare performance

Targets Targets are shown for particular indicators that are either required by government, within the local area agreement or locally-set targets

NI 107 & NI 108 Note that this indicator is only presented where the number of pupils in a cohort is greater than 20. It measures the gap in attainment between the average and different ethnic groups, a positive figure means it is higher than the average.
